**Oracle Names CedarCrestone as the 2007 “PeopleSoft Solution”
Titan Award Winner**

San Francisco, CA, November 12, 2007 – CedarCrestone is honored to be selected as Oracle’s 2007 recipient of the “PeopleSoft Solution” award presented at the Titan Award ceremony at Oracle OpenWorld. The award acknowledges an Oracle Partner who has shown exemplary demonstration of their PeopleSoft Enterprise expertise through a customized and unique solution ensuring measured customer return on investment and clear satisfaction. Recipients of 19 Titan Awards were chosen by an esteemed group of 65 judges who reviewed a record breaking number of nominations.

With 38 hosted PeopleSoft clients, CedarCrestone selected one of their higher education clients to highlight in their nomination for the “PeopleSoft Solution” award. Although the specific project is unique in many ways, it is indicative of the successes achieved with many other clients, spanning all industries with nationwide coverage. The solution which was nominated for the “PeopleSoft Solution” Titan Award focuses on CedarCrestone’s PeopleSoft Enterprise hosting service—which in this case enabled a higher education customer to move from a legacy mainframe environment and upgrade its applications to accommodate a major expansion in the student population. The Oracle PeopleSoft modules being hosted include CRM, Student, Human Resources, Financials Management, and Data Warehouse/EPM Systems. CedarCrestone offered a no-nonsense service level agreement which guarantees system performance, disaster recovery, 24/7 system support, and security.

"The fourth annual Oracle North American Titan Awards recognizes the innovative solutions and exceptional business achievements of partners within the Oracle PartnerNetwork. As the “PeopleSoft Solution” award recipient this year, CedarCrestone has demonstrated their expertise in PeopleSoft Enterprise, developing a hosting solution, and differentiating themselves from a strong group of partners," said Rauline Ochs, Oracle Senior Vice President of North America Alliances and Channels.

“As a trusted advisor to the PeopleSoft Enterprise community, CedarCrestone is continually developing solutions which provide the highest level of satisfaction and innovation to our clients. We are proud to receive recognition from Oracle for our solution and look forward to our future in the OPN as we evolve and expand our service offerings with initiatives to include Application Integration Architecture, Service Oriented Architecture, and Fusion Middleware,” said Cal Yonker, CEO and President of CedarCrestone. “It is with great honor that we receive the 2007 ‘PeopleSoft Solution’ Titan Award.”

Accepting the award at the OPN reception in San Francisco on November 11 was Cal Yonker, Neil Boyer (Chief Operating Officer), and Kristin Copenhaver (VP of Marketing and Alliances). In addition to receiving the “PeopleSoft Solution” award, CedarCrestone also received an honorable mention for the “Applications Momentum” Titan Award given to a Partner with a proven track record in selling and/or influencing the sales of Oracle applications.
